

Empowering the Future: Leveraging AI in Higher Education

Rudy J. Sanchez, Ph.D.
Professor of Management
California State University, Fresno
NCCI Board Member

Gratitude

The background is a dark blue gradient with a subtle pattern of white stars and nebulae. Overlaid on this are several faint, light blue technical diagrams. In the top right, there is a large circular gauge with concentric circles and radial lines, resembling a speedometer or a pressure gauge, with numbers ranging from 0 to 210. Below it, there is a smaller circular diagram with concentric circles and arrows. In the bottom left, there is a partial view of a circular diagram with arrows. The text 'Be Present' is centered in a large, white, sans-serif font with a slight blue shadow.

Be
Present

What we'll accomplish.

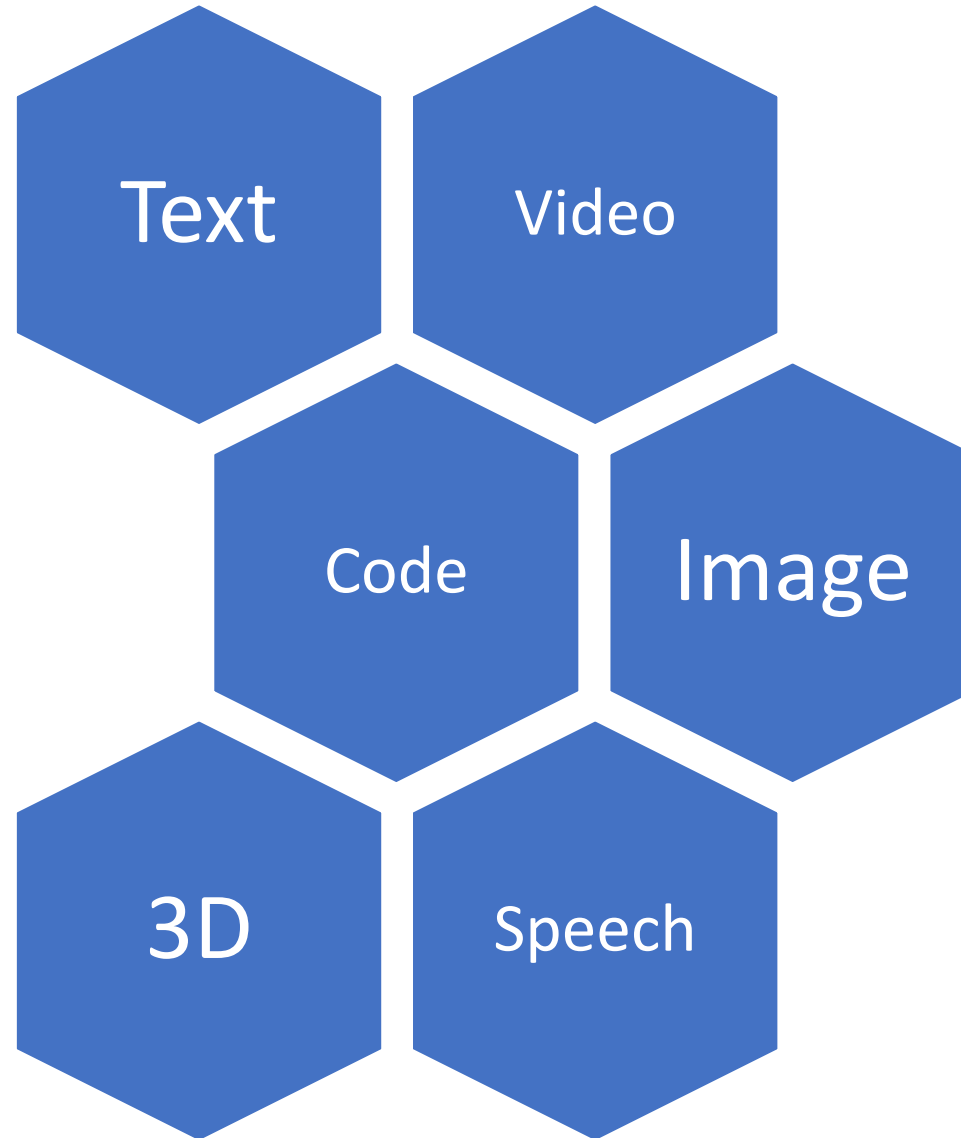

- Give examples of some uses of artificial intelligence in higher education.
- Develop at least one way to approach the use of artificial intelligence at their home institutions.
- Understand some concerns and opportunities regarding the use of artificial intelligence tools in higher education.

Roles

- Professor of Management
- Interim Associate Vice President for Academic and Institutional Effectiveness
- Interim Associate Vice President for Faculty Affairs
- Senior Academic Technology Officer
- Director of Academic Technology
- DETCHE President
- Network for Change & Continuous Innovation, Board of Directors

And the award goes to AI ft. humans: the Grammys outline new rules for AI use

June 18, 2023 · 6:01 PM ET

Juliana Kim

The Recording Academy, which is the organization behind the Grammy Awards, said an AI song is only eligible if a human meaningfully contributed to the song too.

What's happening on your campuses?

Real Estate

- **Bios:** One of your most valuable marketing assets, your bio can pop up just about anywhere, so it's **crucial to get it right**. With 2 prompts, I had a really good starting point that I could add personal details to.
- **Listing descriptions:** Enter your listing's details and even the address and get a well-written property description in seconds.
- **Video and call scripts:** From calls with new leads to videos on market updates and things to do in your area in Spring, coming up with scripts has never been easier.
- **Social media posts:** Need ideas for social media? Just enter 'Give me 3 social media ideas for real estate'.
- **Blogs:** Be sure to add your own touches to make sure the content is high quality so it ranks well in Google. 🌐
- **Website copy:** Simply enter details for the page you want copy for and remember to tweak it.
- **Legal documents:** Did I mention ChatGPT passed exams at a US law school? 🏆
- **Email and text messages:** Customer emails, drip campaigns, the list goes on. Include some details about what you want to communicate, and

“xxx looked into the future and saw a commercial takeover of higher education in which ‘the new technology of education, like the automation of other industries, robs faculty of their knowledge and skills, their control over their working lives, the product of their labor, and, ultimately, their means of livelihood.’”

From a Campus Technology article by David Wiley (April 2023) quoting Nobel (1998) about the effect of the internet on higher education.

Job Placement

Hallo Launches New Career Coaching and Jobs Platform with GPT-4 Coach Boris

- By Kristal Kuykendall
- 06/06/23

“The Career Services Center represents an antiquated model, offering a one-size-fits-all approach to fostering the futures of students – which simply does not work,” Hallo said.

Hallo’s AI career coach Boris was built on OpenAI’s latest GPT-4 model with over 2 million proprietary data points to aid in interview coaching, resume review, and simulated interview preparation, the company said.

What do you think?
How do you feel?

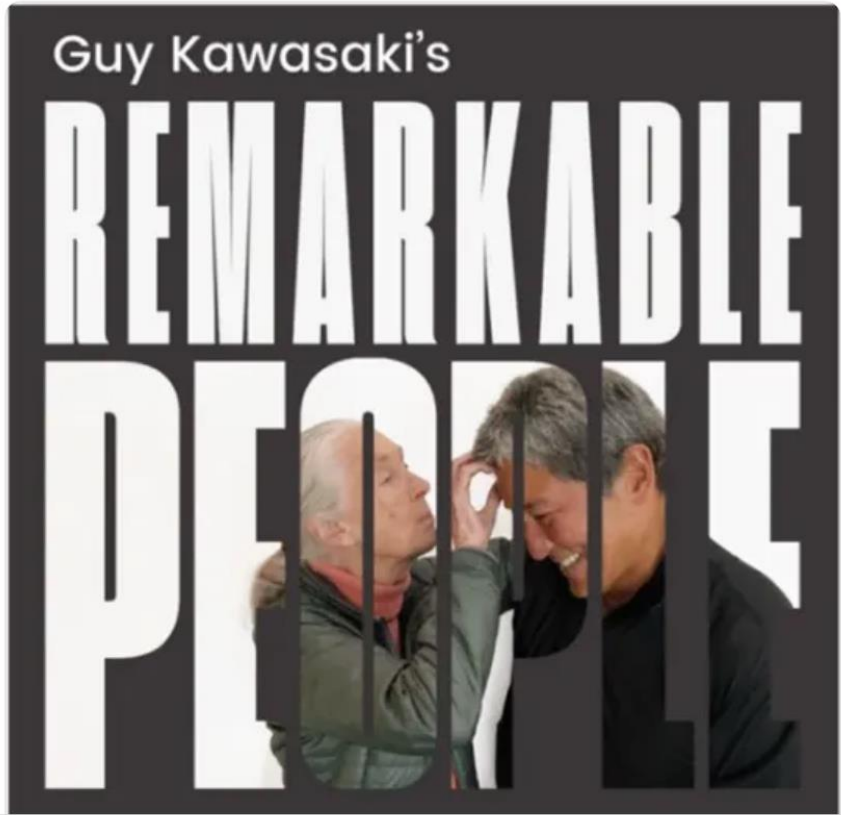

How will we handle....

- You discover that a finalist for a role on your team used ChatGPT to create their resume and cover letter. Perhaps even researched how to respond to possible interview questions.
- One of your team members used ChatGPT to write a report.
- One of your team members used ChatGPT to create a series of workshops to deliver across the campus.

To Leverage AI

- Learn to write/speak quality prompts.
- Evaluate the quality, accuracy, veracity of AI output.
- Set guidelines and expectations.
 - Ethics
 - Transparency
- Utilize our change and innovation facilitation skills.
- Be proactive.
